Artwork Archive's

# WordPress Plugin Installation Guide

Artwork Archive WordPress Plugin

With this you can easily integrate a gallery view with all of your work right in your WordPress website.
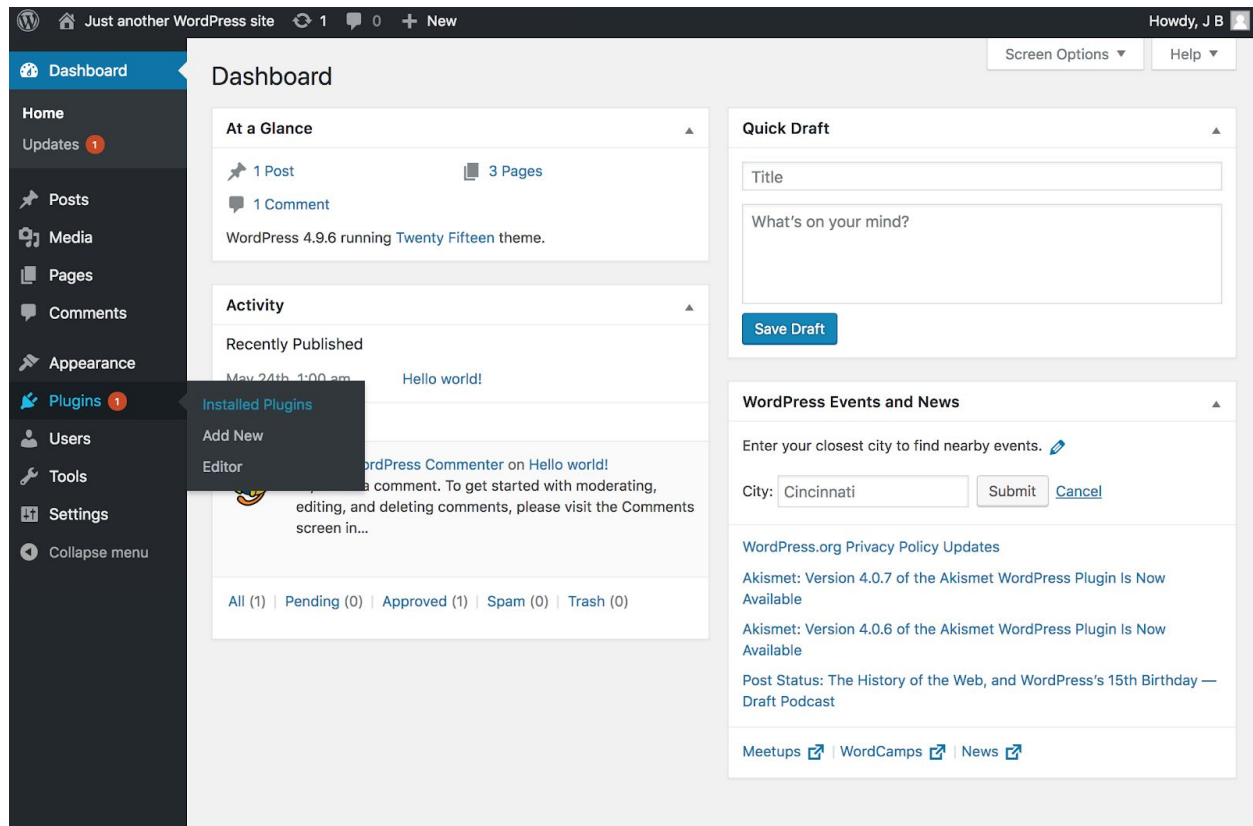

First Step: Go to your WordPress website Dashboard

Find the option that allows you to see the dashboard of your WordPress website
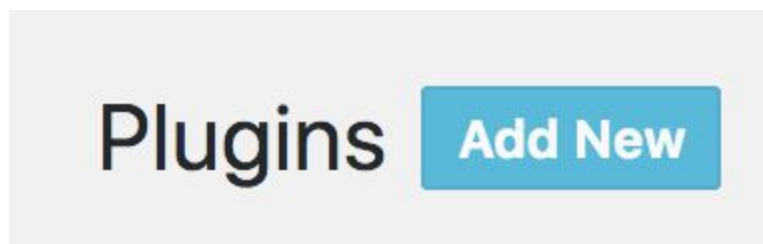

## Second Step: Install Artwork Archive's WordPress plugin

On your dashboard options select Plugins -> Installed Plugins

Then look for the "Add New" button and click on it

Select the option for uploading a new WordPress plugin

That will enable a "Upload" button you must also click

Proceed to select your "aa20-wp-plugin.zip" file and upload it

Finally but not least activate the WordPress plugin once the upload process has been finished

Click on "Activate Plugin" button and you will be all set!

Third Step: Use your Artwork Archive WordPress plugin!

This is the final step, we need to add our gallery plugin to a WordPress page

Dashboard -> Pages -> All Pages -> [Add or Edit] Page

Then just add the following snippet to your page's source code:

[artworkarchive_portfolio_embed user_slug="sophia-rouhana"]

Replace "sophia-rouhana" with your Artwork Archive's artist slug
